SUMMARY

A technically curious individual with a strong analytical mindset, a natural interest in how systems work, and a passion for full-stack development. Brings a structured, problem-solving approach with a background in finance that adds valuable perspective to decision-making. Always eager to learn, adapt, and build practical systems that make a real difference.

EDUCATION

Vivekananda Institute of Professional Studies – GGSIPU

August 2024 – July 2026

Master of Computer Applications

Delhi University – DU

August 2021 – July 2024

Bachelor of Commerce

PROJECT

- **LedgerPro – React & Spring Boot**

Built a full-stack accounting application for sole proprietors using **React**, **Spring Boot**, and **MySQL**. Worked on features like **journal entries**, **ledgers**, **trial balance**, and **automatic financial statements**. Created REST APIs in Spring Boot and connected them with the React UI to show real-time data updates. Focused on clean code, basic OOP concepts, and smooth data handling between frontend and backend.

- **College ERP System – Django**

Built a user-friendly College ERP web application using Django. Implemented role-based login and features such as attendance management, results processing and record management. Used HTML, CSS, JavaScript for the frontend and MySQL as the backend database.

- **Employee Management REST API – Spring Boot**

Built a RESTful backend service using **Spring Boot** to manage employee records with full **CRUD operations**. Used an **H2 in-memory database** for development and tested APIs using **Postman**. Gained hands-on experience with **REST principles**, **controller–service–repository structure**, and basic microservice concepts.

SKILLS

Programming Languages: C, C++, C#, Java, Python, Node.js

Web Technologies: HTML, CSS, JavaScript, TypeScript, Django, React.js, Next.js, Express.js, Spring Boot

Database Technologies: SQL, MySQL, PostgreSQL, MongoDB

Cloud: Cloud Fundamentals, Cloud Deployment, API Hosting Concepts (AWS/Azure/GCP basics)

Core CS Subjects: DSA, Operating System, Computer Networking, Object Oriented Programming

Tools & Technologies: Git, GitHub, Postman, Swagger, Docker (basics)

Soft Skills: Problem Solving, Analytical Thinking, Communication
